

# 【EAEU】 Decision No. 50 & Decision No. 90

- The Eurasian Economic Commission (EEC) approved the Decision No. 50 ([Link](#)) on 2022/4/15 , which postponed the implementation date of the EAEU technical regulation for energy efficiency (EAEU TR 048/2019) to [2025/9/1](#), and this technical regulation might be further updated before the implementation date .
- The Eurasian Economic Commission (EEC) released the Decision No. 90 ([Link](#)) on 2022/6/10, which amended the EAEU technical regulation for Low-Voltage Equipment (TR CU 004/2011) to **exempt** below category of products:
  - ◆ TR CU 010/2011 (safety of machinery): Not applicable to MW's products
  - ◆ TR CU 011/2011 (elevator safety) Not applicable to MW's products
  - ◆ TR CU 012/2011 (safety of equipment in explosion hazardous environments):  
MW's LED driver products can be used for **explosion proof luminaire** application, so we might consider applying for exemption if needed.

The amendment will be effective on [2022/12/7](#)
